RE: Cost Buy Downs

Please find attached to this memo a copy of the MWSA's correspondence related to "Cost Buy Downs". As discussed, this approach provides us a price advantage over using standard Buy Downs/VPR's/Coupons and can be worked in conjunction with co-op programs.

I hope that you will find this information useful. Please call me with any questions that you might have regarding this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark" or "M.R." followed by a stylized "R".

Mark R. Bolger

M-4

This is in conjunction with my E-mail letter on CAMEL incremental funds, and is provided merely as information on what the Mid-West SA is doing as an approach to co-op buydowns.

Melinda
